

# 4 You Free-Form Lenses

Available in Single Vision or Progressive.

## EXPERIENCE:

wider, crisper, clearer vision

- Customized lenses that adapt easier than traditional progressive lenses.
- Lenses are made using digital manufacturing to create natural vision, allowing the wearer to move their eyes naturally throughout all expanded zones of the lens.

Custom designed lenses for your lab only  
Customized for each patient!

### Available with 4You:

- Anti-Reflective Coating
- Anti-Scratch Coating
- Photochromic Treatment
- Polarized Options

Same day Service!

## Eliminates Distortion

## Clearer sight Near, Far & In-Between

4You free-form design lenses virtually eliminate the distortion you have with other progressive lenses. They are so comfortable with natural vision distance near, far and in between, that you'll feel like you're wearing single vision lenses.
